Inspired Leader Journey™

Leading with Values & Purpose

A two-day transformative workshop to help you explore who you are, what you stand for, and what you want to create in your work and life.

We have developed the Inspired Leader Journey™ over 17 years, with over 30 years experience, to help leaders re-frame their challenges and use them as personal and leadership growth opportunities

The Journey enables you to:

- Become highly self-aware – learn how to shift your reactive triggers
- Understand what it means when you live your values fully – tapping into the wisdom that sits within our values
- Connect and align with your deepest sense of Purpose, inspiring you to make a more meaningful difference in your work and life
- Improve your ability to build trust, influence and collaborate with others to have courageous conversations
- Unlock your business challenges through higher levels of consciousness

I've been on plenty of leadership courses and whilst useful, they never got to the heart of what has been holding me back. If you really want to speak your truth and understand and believe it wholeheartedly, then this is the course for you.
